NOTE: Unduplicated counts of Seminar Visitors and Resource Area Visitors cannot be added together to get a total because many seminar visitors are also using Resource Area computers and so would be counted twice. Counts of computer sessions are not unduplicated in that the same customer may use a Resource Area computer several times during this period, and be counted as a session each time. The same is true for workshop attendees who are counted as an attendance each time they take a workshop.

*Statewide seminars (excludes Voc Rehab and Local workshops)

** Registered attendees plus anonymous attendees

*Current workforce center is located in the 55411 zip code area.

**258 Zip codes with less than 1% each of total occurrences.
