In making its selection of designers the Board considers the criteria stated in Section I, Project Description and the following, which are derived in part from Minnesota Statutes 16B.33 Subd. 4(a) and Minnesota Rules Chapter 3200.0700. The order of the criteria does not imply priority, nor are they necessarily weighted equally.

- A. **(Primary): Qualifications and technical competence** in the required field of design and **prior performance** of the Team on projects for the state and others. This is demonstrated by experience of the proposed Team on similar projects and by the proposed Team's discussion in the proposal and in the interview. [Note: Unsatisfactory performance must be documented in writing from the Commissioner of Administration, the University of Minnesota or Minnesota State Colleges and Universities based on criteria set forth in Minnesota Statutes 16B.33 Subd 4(f).]
- B. **(Primary): Leadership, integration and cohesiveness of the proposed Team, compatibility** between the proposed Team and the project stakeholders, and **availability** of appropriate personnel and capacity to accomplish the work within the required constraints. This is demonstrated by:
 - 1. The organization of the project Team and commitment to assign and support the team members proposed.
 - 2. The team dynamics, previous experience of the team working together, and leadership style shown in the interview.
 - 3. The stakeholders' perception of the style demonstrated at the interview as well as previous positive working relationships.
- C. **(Primary): Ability to deal with aesthetic factors**, including the level of design your firm brings into the spaces both interior and exterior. This is demonstrated by experience of proposed team on similar projects.
- D. **(Primary): The proposed team's project understanding, the approach/methodology** as it applies to this project, and the constraints and issues affecting this proposed project. This is demonstrated by the team's

proposal and discussion in the interview.

- E. **(Secondary): Unique qualifications** of the proposed team. This is demonstrated by qualifications of the proposed team.
- F. The following 'fairness' factors are also considered:
 - 1. Geographic relationship of the Prime Firm's base to the project site. This is demonstrated by the location of the Prime Firm and/or its consultants with respect to the project site.
 - 2. Awards previously made to the Prime Firm by the state. This is in the interest of equitable distribution of commissions. Consideration is given to all state work awarded (by executed contract) to the Prime Firm during the past four years prorated based on the number of employees in the Minnesota office(s) of the Prime Firm.

V. RIGHTS RESERVED

Notwithstanding anything to the contrary, the State reserves the right to:

- A. Reject any and all Proposals received in response to this RFP.

- E. At its sole discretion, to waive any non-material deviations from the requirements and procedures of this RFP and to waive irregularities contained in the RFP.
- F. Negotiate as to any aspect of the Proposal with the selected Respondent including asking for a Respondent's "Best and Final" offer.
- G. Extend the contract for up to an additional three years, in increments determined by the State, not to exceed a total contract term of five (5) years.
- H. Cancel the Request for Proposal at any time with no cost or penalty to the State.

All costs incurred in responding to this RFP will be borne by the Respondent. This RFP does not obligate the State to award a contract or complete the project, and the State reserves the right to cancel the solicitation if, in its sole discretion, it is considered to be in the State's best interest.

VI. CONTRACT REQUIREMENTS

A. AFFIDAVIT OF NONCOLLUSION

Each Respondent must complete the attached Affidavit of Noncollusion. This form is available at <http://mn.gov/admin/government/construction-projects/sdsb/>, click on "Forms".

B. CONFLICTS OF INTEREST

Respondent must provide a list of all entities with which it has relationships that create, or appear to create, a conflict of interest with the work that is contemplated in this request for proposals by completing the Organizational Conflict of Interest Form available at <http://mn.gov/admin/government/construction-projects/sdsb/forms.jsp>. The list should indicate the name of the entity, the relationship, and a discussion of the conflict.

C. ORGANIZATIONAL CONFLICTS OF INTEREST

The Respondent must include in their proposal a statement warranting that, to the best of its knowledge and belief, and except as otherwise disclosed, there are no relevant facts or circumstances which could give rise to organizational conflicts of interest by completing the Organizational Conflict of Interest Form available at <http://mn.gov/admin/government/construction-projects/sdsb/forms.jsp>. An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons, the Respondent is unable or potentially unable to render impartial assistance or advice to the State, or the Respondent's objectivity in performing the contract work is or might be otherwise impaired, or the Respondent has an unfair competitive advantage. The Respondent agrees that, if after award, an organizational conflict of interest is discovered, an immediate and full disclosure in writing must be made to the Assistant Director of the Department of Administration's Materials Management Division ("MMD"), 112

Administration Building, 50 Sherburne Avenue, St. Paul, MN 55155, which must include a description of the action which the Consultant has taken or proposes to take to avoid or mitigate such conflicts. If an organization conflict of interest is determined to exist, the State may, at its discretion, cancel the contract. In the event the Respondent was aware of an organizational conflict of interest prior to the award of the contract and did not disclose the conflict to MMD, the State may terminate the contract for default. The provisions of this clause must be included in all subcontracts for work to be performed similar to the service provided by the prime Consultant, and the terms “contract,” “Consultant,” and “contracting officer” modified appropriately to preserve the State’s rights.

D. DISPOSITION OF RESPONSES

All materials submitted in response to this RFP will become the property of the State and will become public record in accordance with Minnesota Statutes 13.591 after the evaluation process is completed. Pursuant to the statute, completion of the evaluation process occurs when the government entity has completed negotiating the contract with the selected vendor. If the Respondent submits information in response to this RFP that it believes to be trade secret materials, as defined by the Minnesota Government Data Practices Act, Minn. Stat. § 13.37, the Respondent must:

- clearly mark all trade secret materials in its response at the time the response is submitted,
- include a statement with its response justifying the trade secret designation for each item, and
- defend any action seeking release of the materials it believes to be trade secret, and indemnify and hold harmless the State, its agents and employees, from any judgments or damages awarded against the State in favor of the party requesting the materials, and any and all costs connected with that defense.

This indemnification survives the State’s award of a contract. In submitting a response to this RFP, the Respondent agrees that this indemnification survives as long as the trade secret materials are in possession of the State.

The State will not consider prices submitted by the Respondent to be proprietary or trade secret materials.

Notwithstanding the above, if the State contracting party is a part of the judicial branch, the release of data

shall be in accordance with the Rules of Public Access to Records of the Judicial Branch promulgated by the Minnesota Supreme Court as the same may be amended from time to time.

In order for the proposal to be considered, a list of the Targeted Group businesses or individuals to be utilized and the percentage of utilization on this contract MUST be submitted with the proposal. A form has been provided for this purpose and is available at <http://mn.gov/admin/government/construction-projects/sdsb/forms.jsp>. **The total percent to be subcontracted must be equal to or in excess of the stated goal.**

Do not leave the percentage blank or identified as "TBD".

Prime contractors may request a waiver from the Targeted Group subcontracting goal requirement as set out in Minn. Rules 1230.1820. subp. 3 if the Responder has demonstrated good faith efforts to meet the goal by submitting documented unsuccessful efforts to obtain certified subcontractors via e-mail to Sheila Scott, Materials Management Division, at sheila.scott@state.mn.us (copying Talia Landucci Owen, Real Estate and Construction Services, at talia.landucci-owen@state.mn.us and Sherry Van Horn, Real Estate and Construction Services, at sherry.vanhorn@state.mn.us). If requesting a waiver from this subcontracting goal, **it must be received via email no later than September 23, 2014 at 4: 30 p.m. C.T.**

Whether or not to grant a waiver will be determined on a case-by-case basis by the Director of the Materials Management Division of the Minnesota Department of Administration or his designee, who shall review all the documentation submitted by the Responder and all relevant documentation in the Division's possession to determine if good faith steps were taken. The Director or his designee must consider whether the documentation demonstrates good faith efforts to achieve the TGB subcontracting goal based on the following general types of activities conducted by the Responder. This list is not intended to be an exhaustive list of activities that may be considered good faith steps:

1. Retrieving a list of certified Targeted Group Businesses that provide the services included in Responder's proposal (Contact info, not just company names)
2. Contact log (who, how when – particularly important for phone contacts that are not as easily documented as email/fax)
3. Confirmation of contact (emails, faxes, etc)
4. Responses from TGBs (no response, no thanks, etc.)
5. Notes on evaluation of TGB responses (if eliminated from consideration, why)
6. Any other efforts responder made to increase (or attempt to increase) the utilization of TGBs.
7. Info on any obstacles responder encountered

The submission of the Targeted Group Subcontracting form confirming that you have met one of the four requirements listed below is a **PASS/FAIL requirement**; failure to complete and submit this form will result in your proposal not being considered for this project.

1. The Prime Firm is Certified as a Targeted Group business
2. The Prime Firm is a Veteran-Owned Small Business as described above
3. The Prime Firm has requested a waiver*
4. The Prime Firm has met the 10% Targeted Subcontracting Goal

***Note about requesting a waiver:** You must submit the Targeted Group Subcontracting Form in order to *qualify* for a “PASS” score; however, if you have checked the box indicating that you have requested a waiver you will only receive a “PASS” score if the request is approved by the Materials Management Division and the waiver is granted. If your request for a waiver is denied, you will receive a score of “FAIL”.

- Responder has attached a screen print of proof of Targeted Group certification available on the Materials Management Division Website at www.mmd.admin.state.mn.us/process/search/ for every Targeted Group identified on the Targeted Group Subcontracting Form, including prime firm if prime firm is certified Targeted Group (see instructions in RFP).
