PURPOSE

The Board works to ensure that **people in Minnesota are safe**. We license qualified applicants, and make sure that physical therapists (PTs) and physical therapist assistants (PTAs) maintain competence. We thoroughly investigate complaints against licensees, provide timely and impartial resolution, and when necessary, discipline licensees.

Our mission is to ensure that Minnesotans receive appropriate physical therapy from competent PTs and PTAs.

STRATEGIES

The Board of Physical Therapy protects the public by licensing only qualified applicants. We also ensure that licensees meet continuing competency standards and practice with skill and safety. We investigate complaints, and enforce standards of practice and ethical conduct. Our efficient initial licensure and annual renewal processes ensure that a PT work force is available to provide care to patients. We provide comprehensive and easily available information to consumers, licensees, and applicants via website, email, in person, and telephone. Our efficiency is enhanced with an integrated regulatory database and web services. The 11 member Board (3 public members, 1 medical doctor, 2 physical therapist assistants, and 5 physical therapists) provides oversight, policy direction, and professional expertise.

Recommendation:

The Governor recommends additional funding for compensation related costs associated with the delivery of agency services. This amount represents an annual increase of 1.8% for compensation costs.

Rationale/Background:

Each year, compensation costs rise due to labor contract settlements, and changes in employer-paid contributions for insurance, FICA, Medicare, retirement, and other factors. Absorbing this increase in compensation costs within existing agency base appropriations results in reduced staffing and/or reduced non-compensation spending.

Proposal:

The Governor recommends increasing agencies' General Fund budgets for employee wage and benefit costs by 1.8% per year for FY 2016-17. Agencies were instructed to include a 1.8% increase to total compensation each year in their base budgets, based upon the compound annual compensation spending rate increase per FTE over the last ten years for executive branch employees. This recommendation is intended to allow agencies to maintain their current level of agency operations.

For non-General Fund direct appropriated funds, the Governor's budget recommendations also include an adjustment of 1.8% per year, where the amount can be supported by the source of revenue.

Results:

This proposal is intended to allow agencies to continue to provide current levels of service and information to the public.
