### Statewide Outcome(s):

The House of Representatives supports the following statewide outcome(s).

### Context:

There are 134 members of the House of Representatives. Each member represents a geographically area of the state and is elected by the voters of the district every two years.

The DFL Caucus and the Republican Caucus departments each provide legislative services to their respective members. Services provided include legislative management, member administrative support, committee administration and support services, constituent and communication/media services, and caucus research services.

The Chief Clerk's Office provides assistance and advice to the speaker and members of the House of Representatives in meeting the legal and parliamentary requirements of the lawmaking process and to record the history of that process in a clear, unbiased, and accurate manner. The chief clerk, first and second assistant clerks, index clerk, and chaplain are elected officers of the house. The Chief Clerk's Office is responsible for all computer technology functions in the House, such as managing a secure local area network, managing numerous application programs and coordinating computer support to all house staff.

The House Research Department provides research and legal services to the house and its members and committees. The work of House Research focuses on legislative decision-making: helping house members and committees develop and evaluate government policies and laws. The department is an agency of the House of Representatives as a whole, rather than a committee or caucus. House Research provides nonpartisan, confidential services to all members of the house without regard to partisan affiliation or legislative position. The department strives to be politically neutral and impartial on the issues. Its staff does not advocate, endorse, promote, or oppose legislation or legislative decision.

The Fiscal Analysis Department provides professional, nonpartisan, and confidential services for all members of the House of Representatives, and provides assistance to the house finance and tax committees on state budgetary and fiscal legislation. Department staff analyzes spending requests, aid committees in developing and analyzing budgetary options, draft legislation to implement budget decisions, track legislative decisions, and provide analysis for legislative oversight of enacted budgets. Fiscal analysts respond to requests from individual members needing analyses or information on state budgetary issues or government finances. The Fiscal Analysis Department researches, prepares, and distributes publications providing information on state budget issues and government finances.

The House Public Information Services Department is a contact point to help the public connect to the Legislature. The mission of the department is to provide credible and timely nonpartisan services that inform the general public of legislative actions, educate the public about the legislative process and encourage public participation in the Minnesota Legislature. The department produces and distributes Session Weekly newsmagazine, Session Daily, committee schedules, committee rosters, members and staff lists, legislative directories, and various publications that explain the state's symbols, governmental structure and lawmaking process. It provides photography services for members, staff and the public, and distributes audio CD copies of all House meetings, and DVD copies of all House television coverage. The department creates and distributes unedited, gavel-to-gavel television coverage of all House floor sessions, select committee hearings, press conferences, and informational and educational programming. Beginning with the start of each legislative session, programming is broadcast, in conjunction with the Senate, weekdays from 8 a.m. to 6 p.m. on the digital Minnesota Channel, which is available statewide on Minnesota's public television stations. Live webcasting and video archives of all House television programming is available on the Internet.

The House Budget & Accounting Department and Human Resources Department performs the financial and human resources functions for the house. Financial functions include: accounting, budgeting, staff and member payroll, accounts payable, and expense reimbursements. Human resources function includes compensation and benefit administration, personnel policy development and communication and house staffing management.

The Sergeant-At-Arms Office provides temporary support staff (pages), parking, facility management, telephone system management, supply and equipment purchases, security, post office, duplication and printing, and educational program services for members, staff, and the public. The speaker appoints the chief sergeant. The assistant sergeants, postmaster, and assistant postmaster are elected by house members to serve with the chief sergeant as officers of the house. Pages serve as support staff for all house and conference committee hearings and aid all departments in accomplishing their duties.
