

Quadriga Conservation Work

- Entire statue restored in 1995.
- Portions of figures have been revisited between 2000-2015.
- Would not have re-gilded for a few more years.
- The Quadriga is currently down due to roof repairs and this creates an efficiency-the most expensive part of the work is moving the statue.
- Cost estimate is \$375K.

Quadriga Conservation Work- Possible Action

“The Capitol Preservation Commission approves use of up to \$375,000, from previously appropriated but unallocated bond resources, to complete the re-gilding of the Quadriga.”
