GOAL TWO:

By January 31, 2020, the number of emergency room (ER) visits and hospitalizations of vulnerable individuals due to abuse and neglect will decrease by 50% compared to baseline.

STRATEGIES:

1. Use data to identify victims and target prevention
2. Monitor and improve accountability of providers
3. Refine measurable goals

[AGENDA ITEM 6a1]

Goal 2 - Strategy 1: Use data to identify victims and target prevention

G2-S1	Key Activity	Expected Outcome	Deadline	Other Agency(s) or Partners
A	Analyze the data from the Minnesota Hospital Association (MHA) to determine the number of individuals who have been treated at a hospital due to abuse or neglect. Individuals who meet the definition of a vulnerable individual will then be identified based on if their source of admission was from either a licensed facility or a home health agency.	Baseline will be Established: These activities are necessary in order to establish a baseline. The MHA data needs to be analyzed in order to determine the number of individuals who meet the definition of a vulnerable individual.	Baseline established by January 31, 2017	MDH
B	Once the baseline is established, the data will then be analyzed to determine any existing patterns and geographic areas which reflect a higher incidences of abuse or neglect of vulnerable individuals.	Identification of areas that require targeted prevention efforts: Identifying geographical areas that are higher concentration, or rate, in the number of vulnerable individuals presenting at hospitals for injuries related to abuse and neglect.	Identify areas to target by February 1, 2017	MDH
C	Conduct a public education campaign targeted at providers who serve individuals with disabilities. Targeted prevention efforts will also be conducted in areas with higher rates of hospitalizations and ER visits due to abuse and neglect of vulnerable individuals.	Targeted providers will: <ul style="list-style-type: none"> • Be educated on how to recognize abuse and neglect • Be educated in methods to reduce barriers in reporting suspected maltreatment, and; • Be educated on how to prevent maltreatment in an effort to prevent future abuse and neglect. 	Initiate public campaign by July 1, 2017	MDH, DHS OMHDD

[AGENDA ITEM 6a1]

Goal 2 - Strategy 2: Monitor and improve accountability of providers

G2-S2	Key Activity	Expected Outcome	Deadline	Other Agency(s) or Partners
A	Report quarterly to the Olmstead Subcabinet the number of citations issued to Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID's) that document failure to report abuse, neglect and other maltreatment.	<p>It is expected that the overall number of maltreatment allegations will rise as a result of the education campaign about how to recognize and report suspected maltreatment.</p> <p>However, the number of citations issued to ICF/IID's that document failure to report abuse, neglect, and other maltreatment should decrease as a result of the education campaign about how to recognize and report suspected maltreatment.</p>	Report to Subcabinet beginning January 1, 2017 and quarterly thereafter	MDH
B	Submit quarterly to the Olmstead Subcabinet the number of citations issued to Supervised Living Facilities that document failure to comply with the development of an individualized abuse prevention plan, as required Minnesota Statute 626.557 subd.14 (b).	Over time, the number of citations issued to Supervised Living Facilities documenting failure to comply with the development of an individualized abuse prevention plan should decrease as providers and direct care staff receive additional education about prevention of maltreatment.	Report to Subcabinet beginning January 1, 2017 and quarterly thereafter	MDH
C	Analyze data from increased reporting to identify areas where targeted prevention strategies can be applied to reduce the occurrence of maltreatment to vulnerable individuals.	As a result of an education campaign focused on how to recognize and where to report suspected maltreatment, allegations of maltreatment are expected to rise. Targeted prevention efforts can then be applied in geographical areas or with providers that reflect higher incidences of abuse or neglect of vulnerable individuals.	Identify areas to target beginning January 31, 2018 and annually thereafter	MDH

[AGENDA ITEM 6a1]

Goal 2- Strategy 3: Refine measurable goals

G2-S3	Key Activity	Expected Outcome	Deadline	Other Agency(s) or Partners
A	The MHA data will be reassessed annually to determine the efficacy of the educational efforts.	The number of emergency room visits and hospitalizations of vulnerable individuals due to abuse and neglect will decrease compared to the baseline.	Reassess data beginning January 31, 2018 and annually thereafter	MDH
B	After reassessment of the MHA data and the effects of the educational campaign, the measureable goal will be reviewed on an annual basis.	It is unknown what kind of an impact the education campaign will have on the overall incidence of abuse and neglect of vulnerable individuals. The measureable goal will need to be reassessed annually to determine if the target needs to be revised.	Review annual goals beginning January 31, 2018 and annually thereafter	MDH
