

RETYPE AND REDACTED FROM ORIGINAL

August 28, 1933

Dear Mr. _____

I am sorry to have to inform you that _____ is having quite a severe attack of bowel trouble. For the past few days she has been passing quite a good deal of mucous sometimes tinged with blood, and this has not responded to treatment as well as we wish. She does not seem to suffer any pain but she is listless and does not seem at all well. It will be all right for to visit her if you wish to do so. We will keep you informed of her condition.

Very truly yours,

Superintendent
