

RETYPE AND REDACTED FROM ORIGINAL

December 20, 1938

My dear Mrs. _____

I want to thank you very much for your very appreciative letter. It is a letter like this which helps to make us feel that the work is worth while and that in spite of the influence of politics and so on, that the individual and personal efforts that are expended on these patients are appreciated.

I have talked with the matron. She assures me that _____ is very well supplied with clothing; the only thing she needs is a pair of shoes. She prefers the high shoes and the size would be size 2. _____ likes to look at picture-books and carries them around with her. This may possibly be a helpful suggestion. The usual preparations for the Christmas festivities are going on in the Hospital and I am sure _____ will have her share of the fun.

With sincerest greetings of the season, I am

Very truly yours,

Superintendent
