Dear Mr. \_\_\_\_\_

No doubt you are anxious to hear how \_\_\_\_\_ has been getting along since you brought her to the School. She seems very contented and happy, has never appeared homesick or lonesome, has a splendid appetite, sleeps well and so far is getting along nicely.

I am enclosing a schedule of the regular visiting days but suggest that you wait at least a month before coming to see \_\_\_\_\_, in order that she may become accustomed to her new surroundings.

We will not write again unless \_\_\_\_\_ should be ill or in need of something, but we are glad to answer inquiries about her at any time.

Very truly yours,

Superintendent
