

RETYPE AND REDACTED FROM ORIGINAL

November 29, 1943

Dear Mrs. _____

I am writing to inform you that your daughter _____ was admitted to this School on November 12th. She came here because she is a feeble-minded girl who has been unable to adjust satisfactorily in foster-homes and is socially inadequate.

_____ is very much retarded in her school work, being unable to do all of the second grade work. She is beyond the school age, being nearly 17 years old but in this School she will have an opportunity for training in any lines in which she is interested. We have industrial classes, physical training, domestic science classes and all sorts of handwork, so that we are able to provide her with a well-rounded training insofar as her mental capacity will allow her to profit by it. In addition to the matter of training, she also will have supervision, care and protection.

We enclose slip showing visiting days and suggest that you wait at least a month before coming to see _____ in order that she may become accustomed to her new surroundings. We will not write again unless she is ill or in need of something, but will gladly answer inquiries concerning her at any time.

Very truly yours,

Superintendent
