
Consumer Directed Supports

**Minnesota Governor's Council on
Developmental Disabilities**

**Public Policy Committee
April 3, 2002**

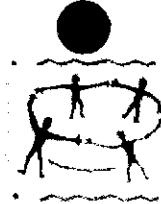

Qualitative Interview Summary

**MarketResponse conducted 18 in-depth interviews
with stakeholders in the Consumer Directed
Community Supports (CDCS) program**

- **8 individuals / families on CDCS**
- **4 county supervisors**
- **4 fiscal intermediaries**
- **2 county case managers**

Research Objectives

- **To develop an understanding of benefits and issues with the existing program**
- **To provide the basis for development of a quantitative survey to be mailed to program participants**

Qualitative Findings

- Emotional topic
- Extremely beneficial to participants
- Has created a lot of tension and work
 - changing roles
 - closely monitored program
 - work shifted from providers to counties and participants
- Formal and informal peer networks

Qualitative Findings

Individual / Family Perspective:

- Program is backing off of self-determination promise
- Restrictions limit flexibility and ability to make appropriate decisions

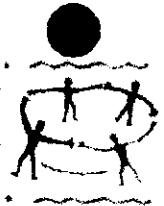

Qualitative Findings

County Perspective:

- Worked very hard to enroll people in 2001
- Some families are taking advantage of the system
 - making lifestyle-based decisions
 - focusing on wants vs. needs
- New guidelines are the solution

Qualitative Findings

Case Manager Perspective:

- **Excited about program but recognize resistance within ranks**
- **Roles have changed dramatically**
- **Feel they can advocate for individual and promote fiscal responsibility**
- **Recognize difficulty of process**

Qualitative Findings

Fiscal Intermediary Perspective:

- See benefits of program
- More time and higher overhead than expected
- See inconsistencies in county decisions
- Individuals view fiscal intermediary as advocate within system and want them more involved

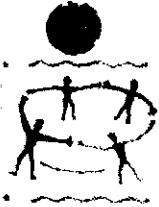

Summary

Major issues:

- “**Defensible to the taxpayer**”
- “**Normal parental responsibility**”
 - comes down to a value judgement
- **Guidelines need to be broad enough to allow for flexibility and retention of self-determination**

Next Step

- Mass survey to 2300 people on CDSCS

Consumer Directed Supports Assessment Survey

MarketResponse

April 2002,

Dear Participant:

Thank you for participating in this important Consumer Directed Supports Assessment Survey. You have received this survey because you participate in the Consumer Directed Community Supports (CDCS) program offered by the Department of Human Services. The purpose of this survey is to understand the impact that consumer directed support programs have had on individuals with developmental disabilities and families and to help improve provided services.

Your opinions are very important and we appreciate your effort. Please respond keeping in mind there are no right or wrong answers, it is your opinions that count. If you are not sure how to respond, please provide your best guess. All of the information you share by participating in this survey will be kept confidential; your participation will not directly impact any government or private services or support you may be receiving.

The content of this survey was created with direct input from people with developmental disabilities and their families. We had the opportunity to meet with people living in the metro and rural areas of Minnesota. We are grateful to them for sharing their personal experiences.

Please complete and return the survey in the postage paid envelope as soon as possible. All surveys should be completed and mailed to us by **April 19, 2002**.

Sincerely,

A handwritten signature in black ink that appears to read "Tom Pearson".

Tom Pearson
Managing Director
